Pro-Pet LLC

RE: Lauren Springer academic letter of recommendation

I am writing to recommend Lauren Springer for the 2014 Pro-Pet LLC College Scholarship. **This is an academic letter of recommendation.**

I have known Lauren for over a year as a student at Winona State University. As her current college professor, I am honored to provide this recommendation. On many occasions, Lauren has demonstrated a unique ability to communicate in diverse situations with several constituency groups. Her intelligence has served her well in the classroom and in her experience as a volunteer for several organizations. I am sure all of your applicants have letters of recommendation from former professors or bosses that elucidate their remarkable abilities in communication, teamwork and leadership. So, let me tell you what is special about Lauren.

Lauren's participation in class is always professional and insightful. None of her comments or questions are shallow or frivolous. She has a distinct ability to make people feel at ease and listens intently to both myself and others. Looking at her resume you can see Lauren has already gained several years of work experience in sales and retail, of which she applied experiences in both of the classes in which I've had her at WSU as a student. I've also enjoyed getting to know Lauren through Delth Sigma Pi, the professional business fraternity, of which both of us are brothers. She's a hard worker and an excellent writer.

All of that is great but, here's the thing—*she's really good at all of it.* I don't just mean these things on her resume and in the classroom. If Lauren takes it on, you know it will be excellent, on time, on budget and presented well. In short, she's a fantastic person and student who deserves support and recognition as she progresses in her academic studies.

I would not hesitate to recommend Lauren Springer for any opportunity, scholarship or project. Please feel free to contact me further about her future prospects and the characteristics that make her an excellent choice as a scholarship recipient.

Sincerely,

Jana Craft

Dr. Jana Craft

Assistant Professor of Business Administration
